### Writs and Appeals

With apologies to Pope:

*"To err is human, to forgive divine . . . unless the error can be corrected on appeal."*

The litigators at Gladstone Michel have briefed and argued hundreds of appeals throughout their careers. Our lawyers have handled appellate matters ranging in importance from leading decisions affecting entire industries to narrow procedural cases that affect one client on a single aspect of an individual case. In every instance, our clients have been provided the highest quality legal services, tempered with sound practical advice.

Whether the appeal involves preventing the reversal of a hard-earned victory, or the correction of trial court errors that deprive our clients of the justice they deserve, we enter the appellate arena with the advantage of experience and legal acumen.

- Gladstone Michel's appellate attorneys are widely respected for their legal knowledge, high quality research, and writing ability.
- Appeals are frequently won at trial; working with our experienced appellate counsel, our trial attorneys know how to preserve important arguments for appeal and are careful to make the necessary record upon which success or failure on appeal can so often depend.
- By handling on appeal the cases our litigators have tried, we provide efficiency, saving appellate litigants the fees separate appellate counsel usually charge to "get up to speed" on a case.
- Our appellate attorneys offer sound advice and representation in connection post-trial settlement issues, advice that is based on our expertise about how cases are likely to be resolved on appeal.

Whether a writ needs to be filed today or a "bad result" verdict was just returned, Gladstone Michel has the right team of lawyers to get the job done. Our appellate experience is especially well-known in professional liability, insurance, and business matters.
